Digital commissions, Branding, Logo Design and Business Coaching

Pricing and Protocols for 2024

Tansì! Hello!

Thank you so much for choosing me to design something original for your business. I am excited to create something that represents you, your brand and your values and coach on developing your vision together with my one-own-one custom business coaching packages. I truly believe that logo design and branding for a company is more than just simple design. For me, it is the opportunity to help your clients and customers engage and connect with you and help the world see your work the way you want it to be seen.

I want to give you all the information possible to make the best decisions for investing in your business so I have laid out the details of my process to help you better understand how I work and how I can work for you.

To help me to connect with your graphic design vision or business coaching needs, I ask all new clients to put together a small package of reference material for me to better understand you and your vision for your business. On the final page of this package, there is a form for you to fill out with your vision, goals and the direction that you want to go in with the designs we will work on together. I also ask for my clients to collect any visual reference they have in a Pinterest or Dropbox folder for us to review during the consultation process.

The design process:

- At the beginning of the process, we will have a call or video chat to discuss your ideas and goals for the art I am creating for you. Whether you are looking for a simple logo, a full website or an entire branding overhaul, I make sure that I take the time to get to know you and your vision for your business.
- I will take notes and ask questions during the consultation to get a idea of what your goals are for what we are creating together and give you a clearer idea of costs, timeline and how to use and work with the designs you are commissioning from me. I can give you a written quote for exactly what you are going to need and what you are going to be using your custom art for.

(Things that may change the pricing scale: licensing to reproduce the design for merchandise, add ons like text or animations, size, detail and the amount of colour involved, training and advice on how to have your materials reproduced and recommendations for producers and manufacturers to make your product dreams a reality.)

- You will provide me with your social media, website or any other photos of your work for me to get an idea of the overall feeling of your business and the look we are going for. If you have any reference material on logos you like, paintings, photos or pieces of your own, I would like to see them so we can discuss the possibilities.
- At the point that we have agreed on an idea, I take a non-refundable deposit to begin working on your project of 50% (depending on the scope of the project). Taking a deposit means that I have the confidence to take on the project, and it assures me of your commitment to seeing it though. It is also necessary to have a deposit on file for me, to ensure that I am being paid for my time at every part of the design process. At this point, you will be sent an engagement agreement so that both parties understand their responsibilities and commitment to the project.
- In my fees, I allow for two redraws of the rough draft designs to ensure that you get the logo or design of your dreams. My ultimate goal is to have satisfied customers and help other small businesses thrive, so I will do everything I can to make your vision a reality for your business.
- Once we have established an idea and a solid direction, I will then give you a timeline to expect seeing thumbnails and rough draft versions of your idea. I will draw up 3+ small, unfinished versions of the idea to show you a few different paths we can take with your art. Once you have chosen your favourite of the rough versions that I have drawn, I can start working on the final project.
- Full payment is due after I have provided a watermarked version of the finished piece, and when payment is recived you will receive your un-watermarked logo in the format of your choice!(PNG, JPEG, JPG, etc.)

What your basic quote for graphic design will include:

- FREE consultation to discuss your ideas and goals
- 2-5 thumbnail rough draft designs to give you a few options about the direction you would like to go
- A finished product, approved by you at every step in the format of your choice
- A safe, reviewed, and custom contract to protect your new branding and my intellectual property
- 10% discount on all future work from me, including website design, merchandise design, or my online Indigenous Entrepreneurship Course
- Advice on how to maximize the benefits of using the custom art you have commissioned
- Optional add-on: Text to accompany your logo
- Optional add-on: Animation for your logo for online application
- Optional add-on: Advice and recommendations for production of merchandise and developing basic marketing techniques

NOTE: There is a surcharge for working with or for any organization where the design and consultation process will be reviewed by committee, regardless of the size of the project. This is from my experience of working with

organizations that need to collate, review and adjudicate to reach a final design, which greatly increases the amount of work involved for me, extends the

project timeline and which will also require additional clauses in our contract

life

to protect against the terms changing as the project progresses. This surcharge is between 10-25%.

Business Coaching:

Starting a business can be a daunting mission, but I can help make it not only painless, but rewarding and enjoyable.
